Digital File Formats

The pages of *McKnight's Long-Term Care News* magazine are created on an Apple Mac. All advertisements must be saved for Macintosh format, ideally a high resolution press optimized PDF.

All ads supplied must have all fonts either made into outline or embedded within, no true type fonts. This helps eliminate re-flowing and font clash issues. Files should be saved as eps, tiff or JPEG, high resolution (at least 300 dpi) and as CMYK and not RGB.

Inserts and Postcards: Contact sales representative.

Mechanical Specifications: Accepted Materials: Electronic Digital File. A SWOP standard proof of the file supplied at 100% size is required for all ads. Typesetting, camera work, stripping, scanning, film conversion and file manipulation will be billed at cost when required to convert to a useable electronic digital file.

Line Screen (B/W, 2/C, 4/C): Maximum 133; acceptable 120

Density: B/W, 2/C maximum 160% to 170%; 4/C maximum 260% to 280%

Standard Colors: Red (100% magenta and 100% process yellow), magenta, process yellow, cyan and green (100% cyan and 100% process yellow). Colors conform to Standard Web Offset Printing (SWOP) specifications.

Proofs: B/W, 2/C, 3/C ads require a digital proof at 100% size of the file supplied. 4/C ads require a Kodak Approval or equivalent SWOP standard color proof at 100% size of the file supplied. In order to ensure that everything runs smoothly, we require SWOP-certified or Kodak Approval hard copy color proofs for new ads. If ads are supplied without a color guide, 100% of actual ad size, then McKnight's cannot accept responsibility for final printed color and content. Haymarket Media will not be held responsible if no proof is provided.
